DECIDUOUS TREES

THE trees we offer have been several times transplanted and grown in nursery rows, far enough apart to allow them to make strong, fibrous roots, thus insuring success in handling. We can furnish a number of fine, large specimen Deciduous Trees not mentioned. Write for prices or visit our Nurseries and examine the stock.

PAEONIES

The demand for the improved varieties of this, "King of Herbaceous Perennials" has been enormous this last few years. Many of the choicest varieties are nearly and some entirely exhausted. In brilliancy of color and perfection of bloom they almost equal the rose. It requires great vigilance and care to grow roses, but the pæonia when once planted, needs no further care, is perfectly hardy, and each succeeding year adds to its size and beauty. The vigorous habits, strong growth, freedom from diseases and insects, also add greatly to its value. No other flower is better adapted for large showy bouquets, as they are large and gorgeous and the foliage is varied from a light silvery green to a deep green color.

A large bed of mixed varieties and colors makes a grand show, as a choice selection will form a succession of bloom during three months. Our collection includes the best varieties, among which are the following :

Agida, dark rose.
Baroness Rothschild, bright pink.
Chas. Grosselin, light rose, light yellow center
